Overview

Version 102 of the Datacenter Advanced Enrichment Actions PowerPack fixes several defects. This is the first GA version of this PowerPack.

- **Minimum Required Platform Version**: 8.10.0
- **Support Status**: GA

This document describes:

- *Pre-installation information*
- *The installation process for the PowerPack*
- *The enhancements and issues addressed in version 102*

Before You Install

Ensure that you are running version 8.10.0 or later of SL1 before installing the *Datacenter Advanced Enrichment Actions* PowerPack version 102.

NOTE: For details on upgrading SL1, see the appropriate ScienceLogic Release Notes.

Installation Process

To install version 102 of the *Datacenter Advanced Enrichment Actions* PowerPack:

1. See the *Before You Install* section. If you have not done so already, upgrade your system to the 8.10.0 or later release.
2. Download the *Datacenter Advanced Enrichment Actions*version 102 PowerPack to a local computer.
4. Go to the **PowerPack Manager** page (System > Manage > PowerPacks). Click the **[Actions]** menu and choose *Import PowerPack*. Import the *Datacenter Advanced Enrichment Actions*version 102 PowerPack. For details on importing PowerPacks, see the chapter on *Installing a PowerPack* in the ***PowerPacks*** manual.
5. Click the **[Install]** button. For details on installing PowerPacks, see the chapter on *Installing a PowerPack* in the ***PowerPacks*** manual.
6. See the ***Datacenter Advanced Enrichment Actions PowerPacks*** for instructions on using the PowerPack.

Features

The Datacenter Advanced Enrichment Actions PowerPack contains a set of automation actions that provide a framework for executing SSH and Telnet commands remotely on a variety of devices, and then formatting the result. There are 311 automation actions that build different lists of diagnostic commands to be executed by the framework. This PowerPack is a pre-requisite installation for the Automation Policy PowerPacks or can be used to build custom Automation Policies.

Enhancements and Issues Addressed

Version 102 of the *Datacenter Advanced Enrichment Actions* PowerPack includes the following enhancements and addressed issues:

- A new automation action has been added: "Enrichment: Util: Load Plaintext Work Instructions". This new action loads plaintext versions of the documents loaded by the "Enrichment: Util: Load HTML Work Instructions" automation action. (RBA-227)
- The following issues are addressed in verion 102 of the Datacenter Advanced Enrichment Actions PowerPack:
    - The HTML-format documents loaded by the "Enrichment: Util: Load Work Instructions" automation actions have been updated to improve formatting, spelling, and grammar. The automation action has been renamed “Enrichment: Util: Load HTML Work Instructions”. (RBA-226)
    - The seven API event policies in this PowerPack are no longer used and have been removed from the PowerPack. (RBA-248)
    - An unhandled exception in the “Cisco-IOS: FRU Show Environment Power” automation has been addressed. (RBA-297)
    - An unhandled exception in the “Cisco-IOS: Show Interface Traps” automation has been addressed. (RBA-298)
    - An issue has been addressed that caused the output of the "Cisco: SPA PLIM Heartbeat" automation to be incorrectly truncated. (RBA-296)
