

Fortinet Base Pack PowerPack Release Notes

Version 7.5.3

Overview

Version 7.5.3 of the "Fortinet Base Pack" PowerPack aligns the PowerPack with ScienceLogic's latest encryption methods and is compatible with Skylar One (SL1) 11.3.0 and later.

- **Minimum Required Skylar One (SL1) Version**: 11.3.0

Before You Install or Upgrade 2

Installation and Upgrade Process 2

Features 3

Enhancements and Issues Addressed 3

Before You Install or Upgrade

Before you install the "Fortinet Base Pack" PowerPack, ensure that you are running version 11.3.0 or later of Skylar One.

NOTE: For details on upgrading Skylar One, see the relevant *Skylar One Platform Release Notes*.

Installation and Upgrade Process

NOTE: If you are currently using the Dynamic Applications in this PowerPack to monitor devices, collection errors might occur for one or two polling cycles while you install a new version. To prevent these errors, disable collection for the monitored devices before you complete the following steps. You can then re-enable collection after the installation completes.

To install this PowerPack:

1. Search for and download the PowerPack from the **PowerPacks** page at the ScienceLogic Support Center (Skylar One > PowerPacks).
2. In Skylar One, go to the **PowerPack Manager** page (System > Manage > PowerPacks).
3. Click the **Actions** menu and select *Import PowerPack*. The **Import PowerPack** modal appears.
4. Click **[Browse]** and go to the PowerPack file from step 1.
5. Select the PowerPack file and click **[Import]**. The **PowerPack Installer** modal appears and displays a list of the PowerPack contents.
6. Click **[Install]**. The PowerPack appears on the **PowerPack Manager** page.

Features

This release includes the following features:

- Dynamic Applications that discover and collect data from Fortinet FortiGate firewalls and other security devices
- Event policies and corresponding alerts that trigger when Fortinet devices meet certain status criteria
- Device classes for the Fortinet devices that the PowerPack monitors

Enhancements and Issues Addressed

This release includes the following enhancements and addressed issues:

- Modified the PowerPack to align with ScienceLogic's latest encryption methods and to ensure compatibility with Skylar One (SL1) 11.3.0 and later.
