

Proxmox: Virtual Environment PowerPack Release Notes

Version 100

Overview

Version 100 of the "Proxmox: Virtual Environment" PowerPack is the initial version of the PowerPack. With this PowerPack, you can monitor your Proxmox environment and related infrastructure resources in real time.

- [Known Issues](#) 3

Before You Install or Upgrade

Ensure that you are running version 12.3.0 or later of Skylar One before installing the "Proxmox: Virtual Environment" PowerPack.

NOTE: For details on upgrading Skylar One, see the relevant [Skylar One Platform Release Notes](#).

Installation and Upgrade Process

NOTE: If you are currently using the Dynamic Applications in this PowerPack to monitor devices, collection errors might occur for one or two polling cycles during the installation of a new version. To prevent collection errors during an upgrade, you can optionally disable collection for monitored devices before performing the following steps and re-enable collection after the upgrade.

To install this PowerPack:

1. Search for and download the PowerPack from the **PowerPacks** page at the [ScienceLogic Support Center](#) (Skylar One > PowerPacks).
2. In Skylar One (formerly SL1), go to the **PowerPacks** page (System > Manage > PowerPacks).
3. Click the **Actions** menu and choose *Import PowerPack*. The **Import PowerPack** modal appears.
4. Click **[Browse]** and navigate to the PowerPack file from step 1.
5. Select the PowerPack file and click **[Import]**. The **PowerPack Installer** modal displays a list of the PowerPack contents.
6. Click **[Install]**. The PowerPack is added to the **PowerPack Manager** page.

Features

This release includes the following features:

- Dynamic Applications that discover and collect data from Proxmox virtual environments
- Event policies and corresponding alerts that are triggered when Proxmox environments or resources meet certain status criteria
- A universal credential for discovering Proxmox: Virtual Environment devices
- A device dashboard to display information about Proxmox virtual environments

Known Issues

This release has no known issues.
