Before You Install or Upgrade

Ensure that you are running version 11.3.0 or later of SL1 before installing *ScienceLogic: Restorepoint* version 100.

NOTE: For details on upgrading SL1, see the appropriate [Release Notes](#).

Installing ScienceLogic: Restorepoint PowerPack version 100

TIP: By default, installing a new version of a PowerPack will overwrite all content in that PowerPack that has already been installed on the target system. You can use the **Enable Selective PowerPack Field Protection** setting in the **Behavior Settings** page (System > Settings > Behavior) to prevent the new version of the PowerPack from overwriting local changes for some commonly customized fields.

NOTE: If you are currently using the Dynamic Applications in this PowerPack to monitor devices, collection errors might occur for one or two polling cycles during the installation of a new version. To prevent collection errors during an upgrade, you can optionally disable collection for monitored devices before performing the following steps and re-enable collection after the upgrade.

To install this PowerPack:

1. Familiarize yourself with the [Known Issues](#) for this release.
2. See the [Before You Install or Upgrade](#) section. If you have not done so already, upgrade your system to the 11.3.0 or later release.
3. Download the *ScienceLogic: Restorepoint* version 100 PowerPack from the Support Site to a local computer.
4. Go to the **PowerPack Manager** page (System > Manage > PowerPacks). Click the **[Actions]** menu and choose *Import PowerPack*. When prompted, import *ScienceLogic: Restorepoint* version 100.
5. Click the **[Install]** button. For details on installing PowerPacks, see the chapter on *Installing a PowerPack* in the **PowerPacks** manual.

For more information, see the manual **Monitoring ScienceLogic: Restorepoint** for instructions on using the new PowerPack.

Features

Version 100 of the *ScienceLogic: Restorepoint* PowerPack includes the following features:

- The following Dynamic Applications to discover and monitor Restorepoint devices:
 - ScienceLogic: Restorepoint Device Config
 - ScienceLogic: Restorepoint Device Discovery
